MODEL CHOICE

Allied Mobility understands that everyone's needs are different. With that in mind, we have designed two different **Horizon™ WAV** sizes for you to choose from, the **Standard** and **Plus**.

Standard

Our popular RS model cleverly combines full original Peugeot seating with the ability to create wheelchair space quickly and easily by folding the rear seats forward.

Alternatively, for a longer or wider wheelchair or powerchair, the RE model is the perfect choice. Either one or two slimline rear passenger seats can be added, depending on the size of your wheelchair.

Plus

Peugeot **Horizon™ Plus** is ideal for larger families who need additional seating. The RS Plus retains Peugeot's original seating and unlike the standard **Horizon™**, the rear seats do not need to be folded forward.
