DISCOVER INSPIRE™

Discover a renewed sense of freedom with our Drive From Wheelchair WAV (DFW), Peugeot Inspire™, available exclusively from Allied Mobility.

Based on the Peugeot Rifter and coming in the impressive GT specification as standard, which includes top of the range features such as a colour reversing camera, **Inspire™** makes independent travel possible for wheelchair users.

With one-touch automatic tailgate and wheelchair ramp release, **Inspire™** is designed to ensure you can easily enter the vehicle in your manual or powered wheelchair to the driver or upfront passenger position without assistance from a fellow traveller.

Inspire™ lets you go where you want, when you want.

1. Compact DFW with a sleek design
2. PEUGEOT i-Cockpit® 10" colour touchscreen
3. Parking sensors to help you manoeuvre
4. One-touch automatic tailgate open
5. One-touch automatic wheelchair ramp release

WHAT IS A DRIVE FROM WHEELCHAIR WAV?

A Drive From Wheelchair WAV (DFW) is a specially designed vehicle which enables you to drive from your wheelchair.

By removing and stowing the original driver seat, space is created for your manual or powered wheelchair.

Using a handy key fob, your tailgate is opened automatically which releases your low-gradient wheelchair ramp, allowing you to enter your DFW safely from the rear of the vehicle. Once inside, you'll find superb visibility and an automatic safety system to secure your chair in place.

If you've just started looking at cars you can drive in a wheelchair, it's good to get expert advice. At Allied Mobility, our trained and friendly mobility consultants can talk you through how to personalise your **Inspire™** to ensure you have a safe and comfortable drive.

WHAT IS AN **UPFRONT PASSENGER WAV?**

If you don't plan on driving and you would prefer to travel in the upfront position alongside the driver in your wheelchair, Inspire™ is the choice for you.

With the original Peugeot front passenger seat easily removed, a wheelchair or powerchair can enter by the rear access ramp and move right up to the forward position. An independent automatic safety system (docking station) or four-point tie downs can be used to secure your chair in place, alongside a full lap and diagonal seat belt, ensuring a safe and comfortable journey.

VEHICLE FEATURES

Inspire™ is a modern WAV with a stylish base vehicle, brimming with exciting features for your comfort and safety.

What's more, Inspire comes in GT line spec as standard. This means you can enjoy additional user benefits including colour reversing camera, parking sensors, electric parking brake and PEUGEOT i-Cockpit® 10" colour touchscreen with in-car entertainment system, which mirrors your Apple or Android smart phone. There's also a stylish black front bumper with chrome strip grille and 17" alloy wheels to finish the sleek look of **Inspire™**.

VEHICLE FEATURES

1. Cruise control & speed limiter
2. Steering-wheel mounted audio controls
3. i-Cockpit® touchscreen with in-car entertainment
4. Air conditioning
5. Automatic transmission
6. Power folding, door mirrors
7. LED daytime running lights
8. 17" alloy wheels

CHARITABLE GRANTS FROM MOTABILITY

You may be eligible for a Charitable Grant from Motability which will help towards the cost of ensuring you can drive independently.

Motability's Complex Driving Solutions Programme can help with the cost of your Advancement Payment or the personalised driving adaptations and aids you may require. It's important to know that all grant applications are means-tested so Motability will look at your financial situation, including household income and savings and may ask you to make a contribution towards the vehicle yourself.

To find out more or to apply for funding, contact Motability on **0800 500 3186**, email **grantsteam@motability.org.uk** or visit their website for more information.

PERSONALISE YOUR INSPIRE™

We're all unique when it comes to our driving needs so no two Drive-From vehicles are the same.

To ensure you have a safe and comfortable drive, we'll help personalise your **Inspire™** with driving adaptations and aids, customised to suit your unique needs.

On your home demonstration and test drive, your dedicated mobility consultant will assess your strength and range of movement and suggest suitable driving adaptations. If you already use these in your current car, we can aim to replicate what you're already comfortable with. Either way, our goal is to ensure your driving experience is as smooth and enjoyable as possible.

The driving aids that you choose will be carefully measured at your demonstration by your mobility consultant so they're in a comfortable position for you. They'll also return on your delivery day and ensure you're confident and comfortable using all the accessible features of your new car.

YOUR DRIVING ASSESSMENT

If you're new to wheelchair driving or you're changing your current driving adaptations, your expert Allied Mobility consultant will provide a thorough evaluation of your driving ability.

They'll test things like your vision, reactions, awareness and ability to operate your personalised driving aids. This ensures your safety on the road and suitability for driving.

You may be asked by the DVLA or Motability to visit a driving assessment centre. These are certified centres found throughout the UK. You can find your local assessment centre by visiting www.drivingmobility.org.uk.

YOUR ALLIED MOBILITY JOURNEY

You'll have a dedicated mobility

Step 1

Our vehicle specialists will discuss your requirements with you, over the phone.

Step 2

We bring a vehicle to your home for a free demonstration and test drive, at a time that suits you.

Step 5

We'll arrange delivery on a date that suits you.

Step 6

Your dedicated delivery specialist will give you a refresher on the accessibility and safety features of your new car.

consultant to guide you through your journey.

Step 3

We can discuss personalised driving adaptations if you need them.

Step 4

Once you're completely happy with your choice, we can help with your Motability paperwork or suggest alternative finance options.

Step 7

Now it's time to hand over your keys!

Step 8

Our Allied Autocare team will provide a safety check every 12 months. They can even fully service your car at your home address.
