WHAT IS AN INTERNAL TRANSFER WAV?

An Internal Transfer WAV allows you to enter the vehicle in your wheelchair, powerchair or mobility scooter and then transfer safely inside to a specialised driver or front passenger seat.

With its automatic tailgate, rear ramp release and six-way adjustable Turny seat, getting in, transferring and setting off is simple, smooth and stress-free with **Dream™**.

Built on the Ford Tourneo Custom, **Dream™** combines advanced accessibility with premium comfort, technology and style so every journey feels effortless.

No dismantling your wheelchair. No exposure to the weather. Just easy entry, plenty of internal space to transfer and then start your journey.

DARE TO DREAM™

1. One-touch automatic tailgate release
2. Specially lowered floor for optimum accessibility
3. Suitable for powerchairs, wheelchairs & mobility scooters
4. High quality docking station

GETTING READY TO TRAVEL

With one press of your key fob:

- The tailgate opens automatically
- The rear ramp simultaneously lowers into place

Once inside:

- Your wheelchair is secured using a docking station or four-point restraint system
- You position yourself next to the six-way Turny seat and transfer across

Six-way adjustable Turny seat

The Turny seat is designed to help you find your most comfortable and practical position, whether you're driving or travelling as an upfront passenger.

Turny offers six-way movement:

- Up & down
- Forward & backward
- Rotate left & right

All taking place entirely inside the vehicle, providing comfort, privacy and protection from the elements.

VEHICLE FEATURES

1. 13" media centre with Apple Car Play/ Android Auto
2. Front & rear air conditioning
3. Keyless entry and start
4. Heated driver & front passenger seats
5. Factory fitted Sat Nav
6. Reversing colour camera & radar front & rear sensors
7. 17" alloy wheels

PERSONALISE YOUR **DREAM™**

We're all unique when it comes to our driving needs, so no two internal transfer vehicles are the same. To ensure you have a safe and comfortable drive, we'll help personalise your Dream™ with driving adaptations and aids, customised to suit your needs.

On your home demonstration and test drive, your dedicated mobility consultant will assess your strength and range of movement and suggest suitable driving adaptations. If you already use these in your current car, we can aim to replicate what you're already comfortable with. Either way, our goal is to ensure your driving experience is as smooth and enjoyable as possible.

The driving aids that you choose will be carefully measured and fitted to your vehicle around a week before your car is due to be delivered. Your mobility consultant will be there to make sure everything is positioned according to your personalised specifications. They'll also return on your delivery day and ensure you're confident and comfortable using all the accessible features of your new car.

YOUR DRIVING ASSESSMENT

If you're new to wheelchair driving, or you're changing your current driving adaptations, your expert mobility consultant will provide a thorough evaluation of your driving ability.

They'll test things like your vision, reactions, awareness and ability to operate your personalised driving aids. This ensures your safety on the road and suitability for driving.

You may be asked by the DVLA or the Motability Scheme to visit a driving assessment centre. These are certified centres found throughout the UK. You can find your local assessment centre by visiting www.drivingmobility.org.uk.

TECHNICAL SPECIFICATION

Engine Options

2.0 TDI 130
EcoBlue Auto

Emission control standard	Euro 6
Fuel	Diesel
Fuel capacity (litres)	55

HOMESTAY™ SERVICE

HomeStay™ Mobile Servicing is the hassle-free way to have your vehicle serviced right outside your front door and is exclusively available to Allied Mobility customers.

Our mobile service vans are fully equipped with specialist tools to inspect all of the mechanical and electrical components of your WAV, just as you would have them checked at a service centre.

If you're a Motability Scheme customer, your vehicle service is included as part of your all-inclusive package. We'll also visit you to complete your annual safety check on all of the adapted features of your car.

If you've bought your car outright, you can also enjoy home servicing, simply speak to your mobility advisor for more information.

So, whether at your residence, work or a different location entirely, our qualified automotive mechanics will meet you there.

YOUR ALLIED MOBILITY JOURNEY

You'll have a dedicated mobility

Step 1

Our vehicle specialists will discuss your requirements with you, over the phone.

Step 2

We bring a vehicle to your home for a free demonstration and test drive, at a time that suits you.

Step 5

We'll arrange delivery on a date that suits you.

Step 6

Your dedicated delivery specialist will give you a refresher on the accessibility and safety features of your new car.

consultant to guide you through your journey.

Step 3

We can discuss personalised driving adaptations.

Step 4

Once you're completely happy with your choice, we can help with your Motability Scheme paperwork or suggest alternative finance options.

Step 7

Now it's time to hand over your keys!

Step 8

Our Allied Autocare team will provide a Motability Scheme safety check every 12 months. They can even fully service your car at your home address*.
