**Freedom™** owners also benefit from the option of manual or automatic transmission and a range of seating layouts, allowing you to create the ideal vehicle to meet your needs.

Built with convenience in mind, **Freedom™** RS second-row rear seats can remain in place while the wheelchair passenger travels in the third row.

The **Freedom™** RE is ideal if the wheelchair user prefers more space, as the second-row rear seats have been removed. If a more compact vehicle is preferred, the short wheelbase RE model is a great choice.

The rear seats within the RE model remain in position at all times and are not folded forward. **Freedom™** RE can accommodate driver, wheelchair passenger and up to three additional passengers.
