Freedom™ owners also benefit from automatic transmission and a range of seating layouts, allowing you to create the ideal vehicle to meet your needs.

Additional features such as front and rear parking sensors, heated windscreen and keyless start ensure a smooth, safe and comfortable journey every time.

ACCESS, SAFETY & SEATING

Accessibility is Freedom's™ priority. The specially lowered floor ensures the slip resistant SpaceLite™ ramp has a low, easy gradient, while the optional electric-assist winch offers support entering and exiting the vehicle.

Once inside, the wheelchair user will benefit from the security of class-leading front and rear wheelchair restraints and a dedicated wheelchair passenger seat belt.

Available in two models, RSX and RE, **Freedom™** is built for convenience. The rear passenger seats in RSX can remain in place while the wheelchair passenger travels in the third row. If the wheelchair user requires additional space, these seats can be folded forward.

With one or two fixed seats at either side of the wheelchair user in row two, **Freedom™** RE is the ideal model for wheelchair users who prefer to travel further forward in the vehicle with additional space.
